PROFESSIONAL SUMMARY

B.Tech Computer Science & Engineering (AI & ML) student with strong academic performance and hands-on exposure to Python, C, web development, SQL, data analysis and visualization. Experienced in building practical software projects and working with modern AI, GIS, weather and government data APIs to solve real-world problems.

TECHNICAL SKILLS

Programming: Python, C, HTML, CSS, JavaScript
Data Analysis: SQL, Pandas, NumPy
Data Visualization: Matplotlib
Database: MySQL
Tools & Platforms: Git, GitHub, LinkedIn

EDUCATION

B.Tech, Computer Science & Engineering (AI & ML) - Brainware University 2024-2028
SGPA: 8.87/10
12th (Senior Secondary Examination) - CBSE Board | Score: 75% 2024
10th (Secondary Examination) - CBSE Board | Score: 85% 2022

EXPERIENCE

Fresher

Open to internship and entry-level opportunities.

PROJECTS

SmartAgro - AI Advisory Intelligence

Tech Stack: Python, Flask, HTML5, CSS3, JavaScript, Groq API, Gemini API, Leaflet.js, Agmarknet API, OpenWeatherMap API, NASA MODIS NDVI Data, Chart.js, Hugging Face Spaces.

- Developed an AI-powered agriculture advisory platform for crop insights, weather-based recommendations and mandi intelligence.
- Integrated GIS/mapping, government market data, weather APIs and AI services to provide practical, location-aware information.
- Designed a responsive PWA interface with offline capabilities and data visualization.

BANK MANAGEMENT SYSTEM

Tech Stack: Python, MySQL

- Built a database-driven banking application for account creation, customer records, deposits, withdrawals and balance management.
- Implemented structured SQL operations to maintain and retrieve banking data efficiently.

CERTIFICATIONS

- Certificate of Web Development - Simplilearn, Udemy, 2026.
